

Let's Win Some Money!

Brought to you by your favorite sibling (Kristal)

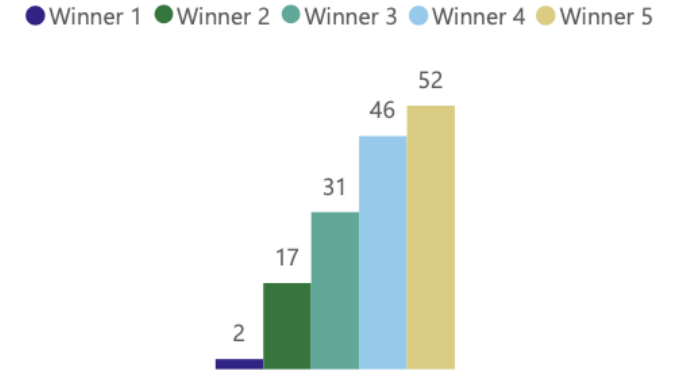

If we're going to gamble
on lottery tickets, we
may as well be 'smarter'
about it.

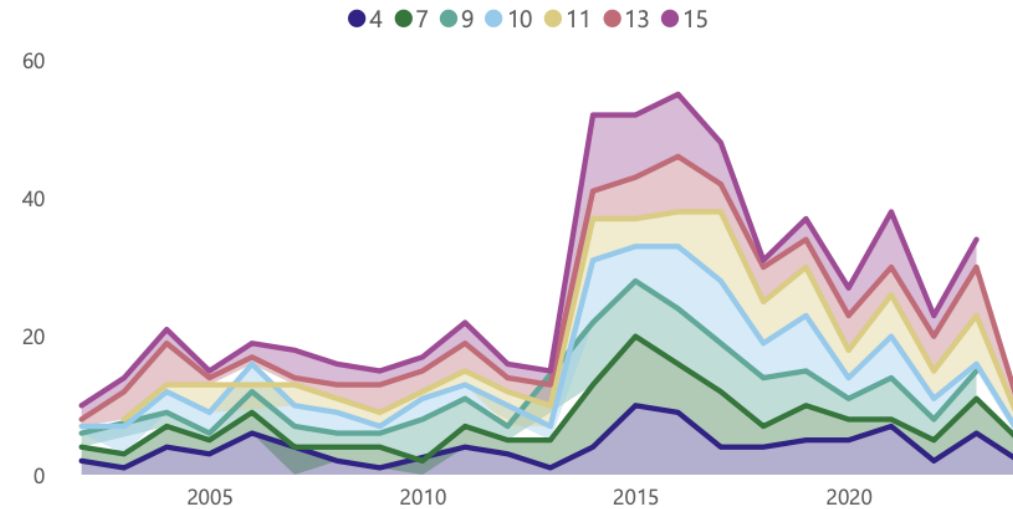

Mega Millions

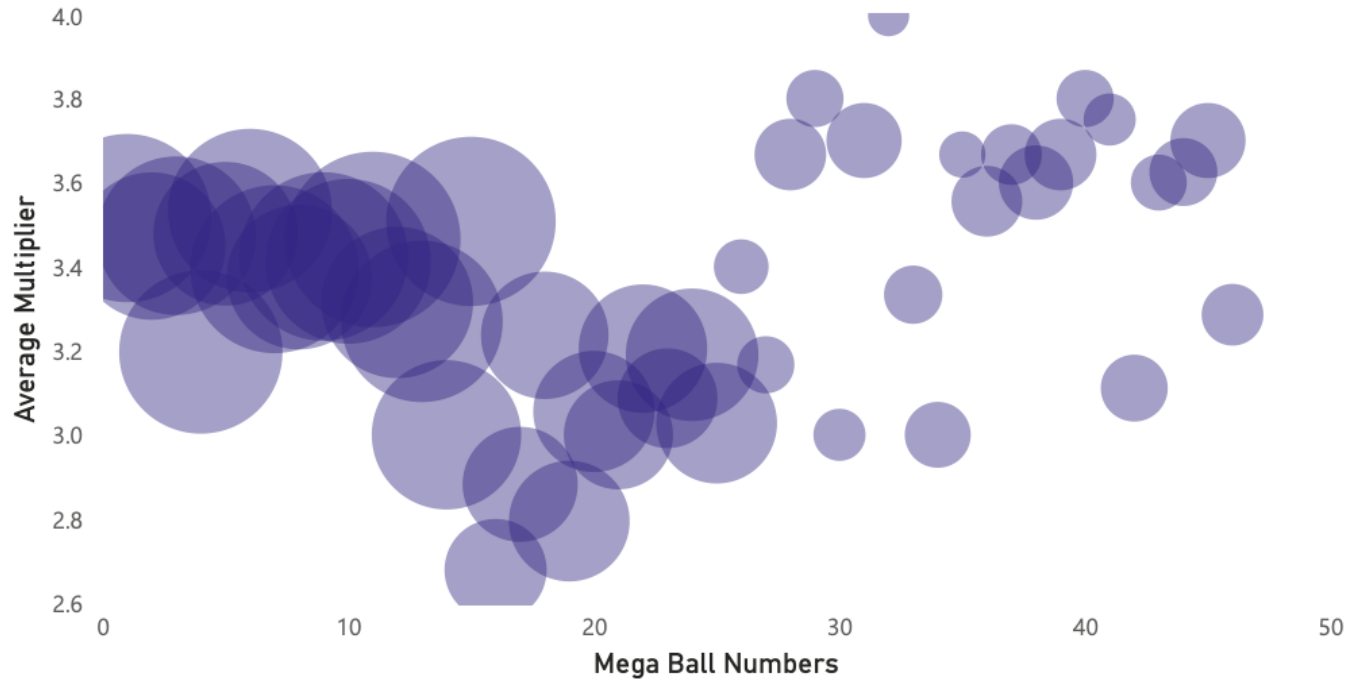

- For all the years we have data for this lottery, these are the most common winning numbers:

Spread of most popular numbers over time

Majority of the Mega Ball numbers are between 0-20 with the average multiplier above 3x!

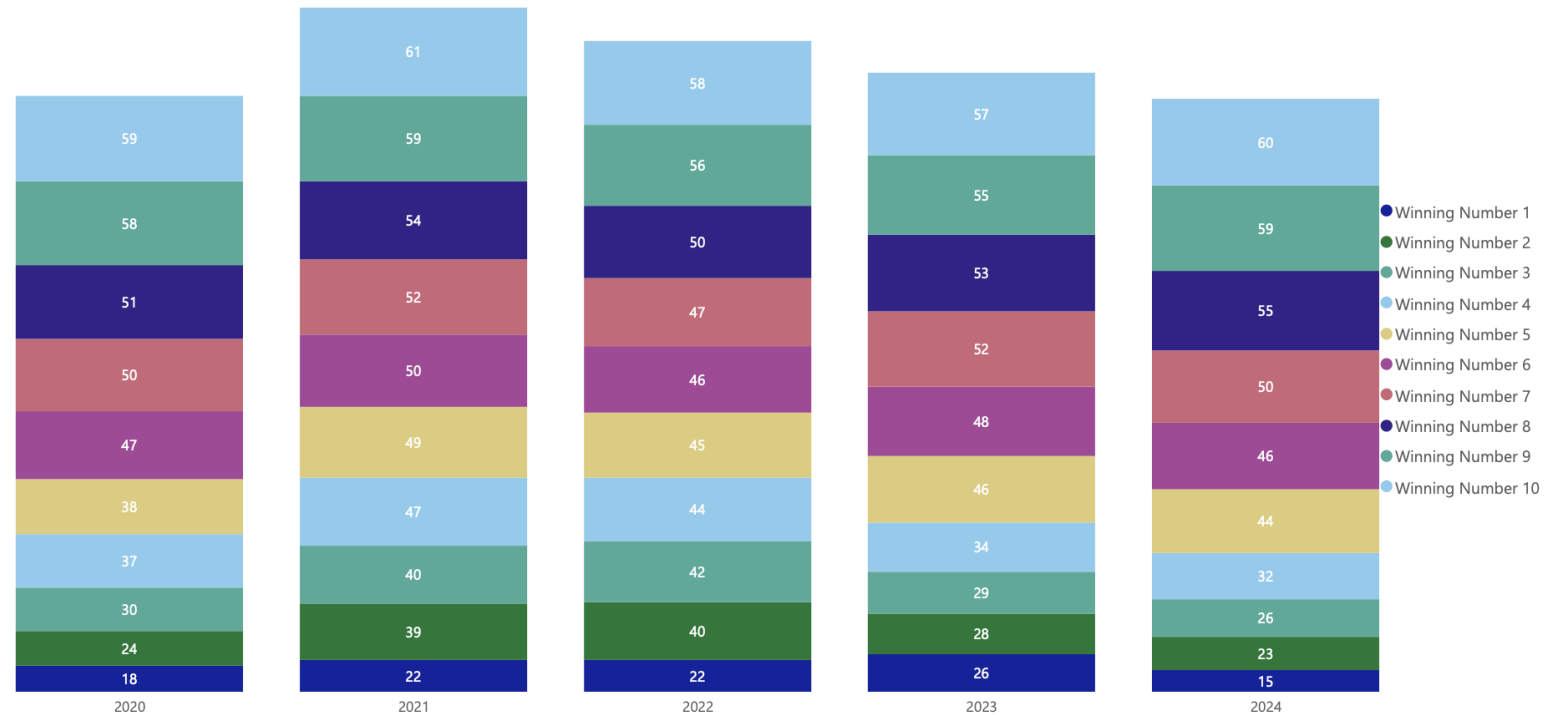

With the lucky number

being the most picked Mega Ball number

Pick 10

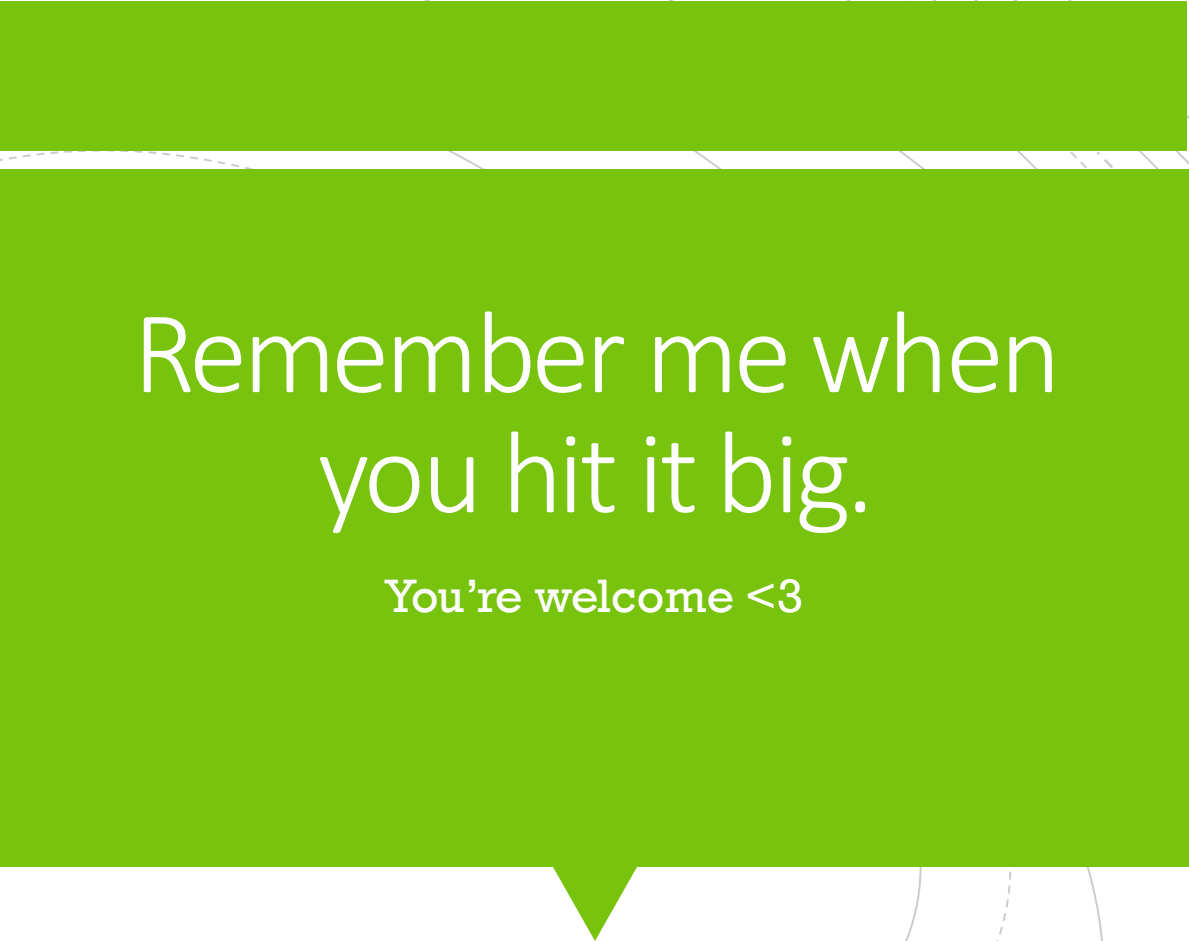

- More difficult to win as there's more numbers to it
- But if you're going to do it, here's the maximum numbers for the past five years for the first 10 numbers

Last, but not least,
we're talking
potential Billions:
Powerball

- In the last five years, these are the most common winning numbers broken out by multipliers.
- Yes, there is a no multiplier and a 10x multiplier possibility, but they're far and few between.

Remember me when
you hit it big.

You're welcome <3
