

TARGETED MARKETING FOR SURROUNDING AIRPORT AREAS

Presented by Kristal Lee

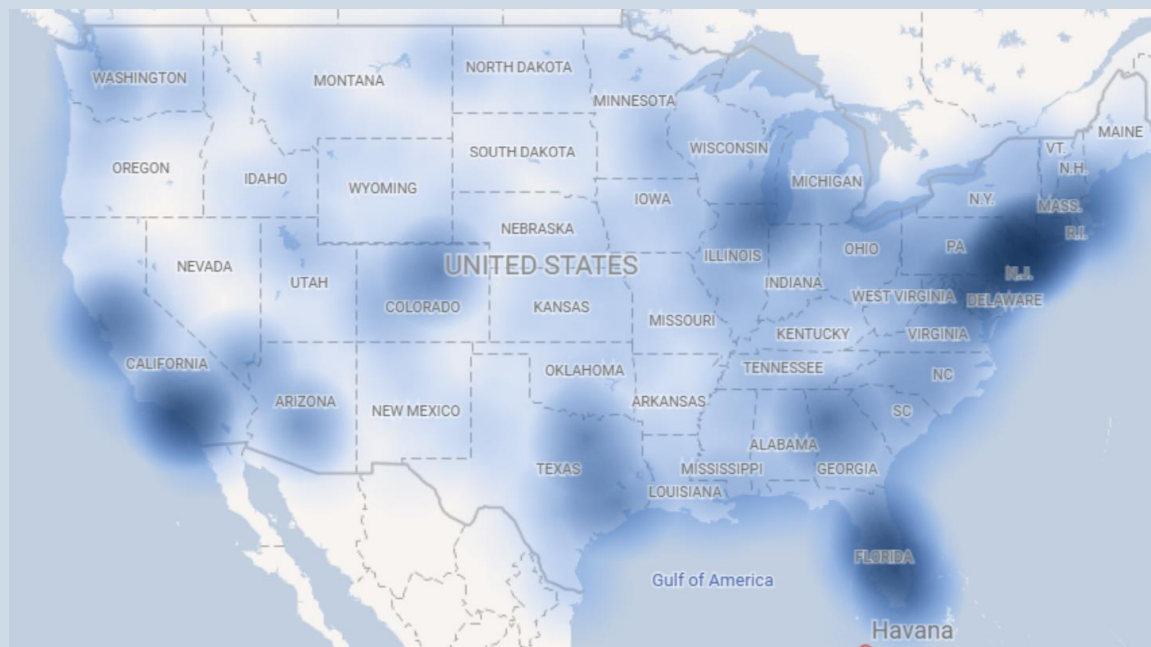

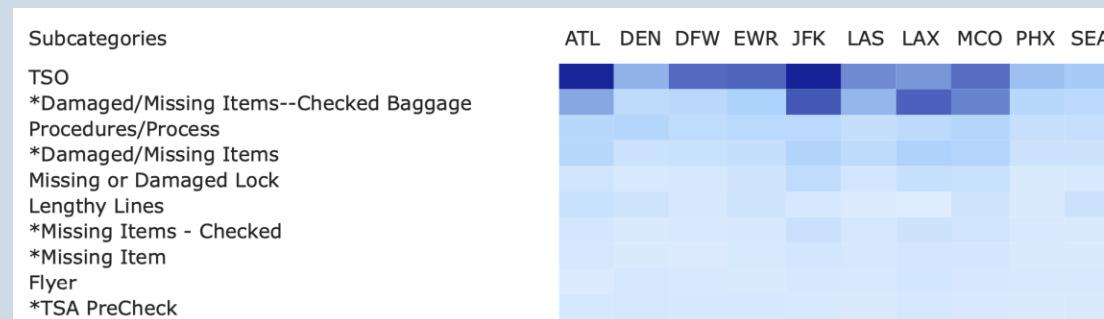

Background

- In the years after COVID, the overall amount of complaints at airports has increased
- As of 2023, global travel levels have reached approximately 88% of pre-pandemic levels
- However, many organizations have not fully recovered resulting in issues such as staffing problems, etc.

Airports Complaints

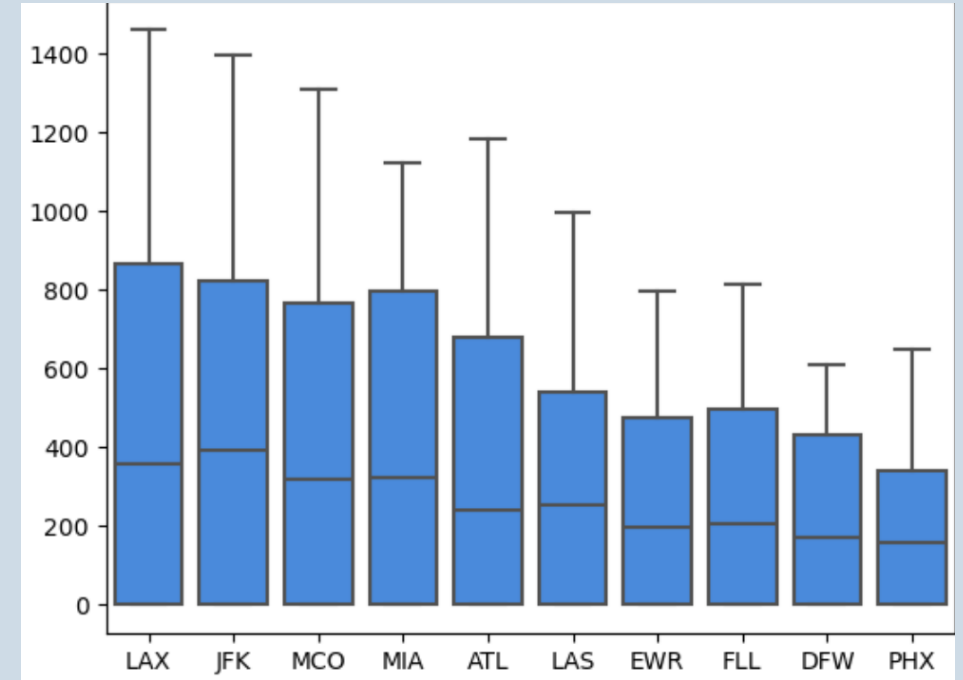

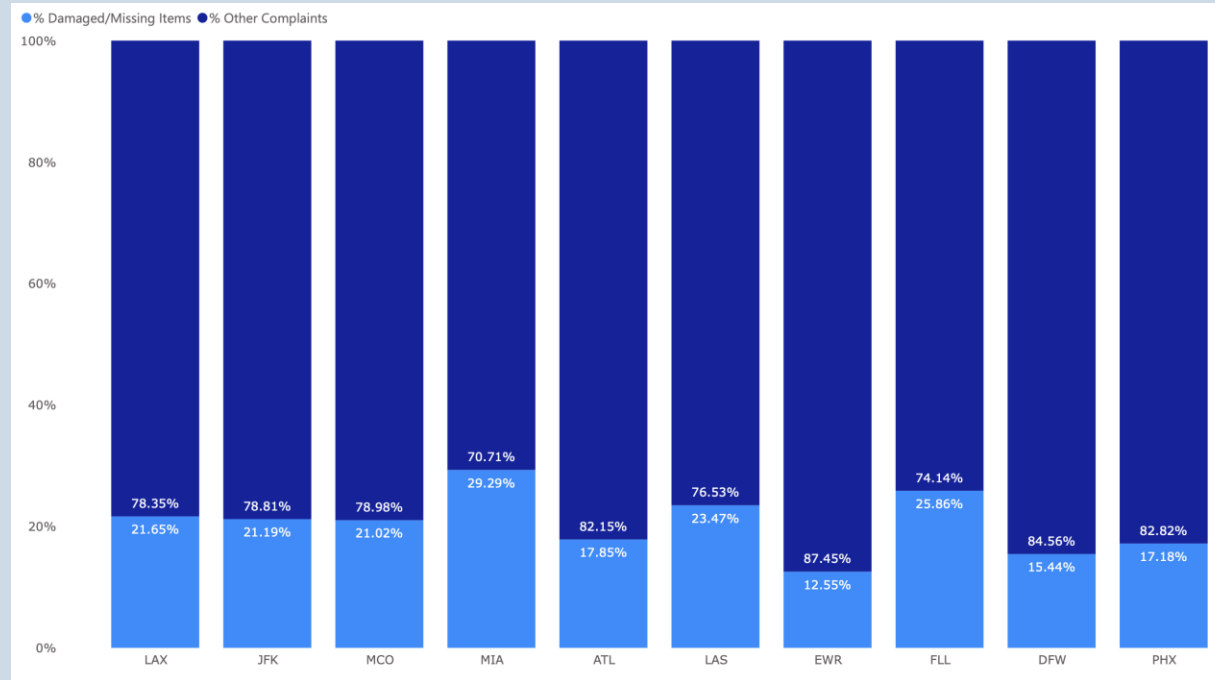

- Here we have the top airports with the most amount of complaints
- Damaged/Missing items are among the top of complaints

Airport Marketing Proposal

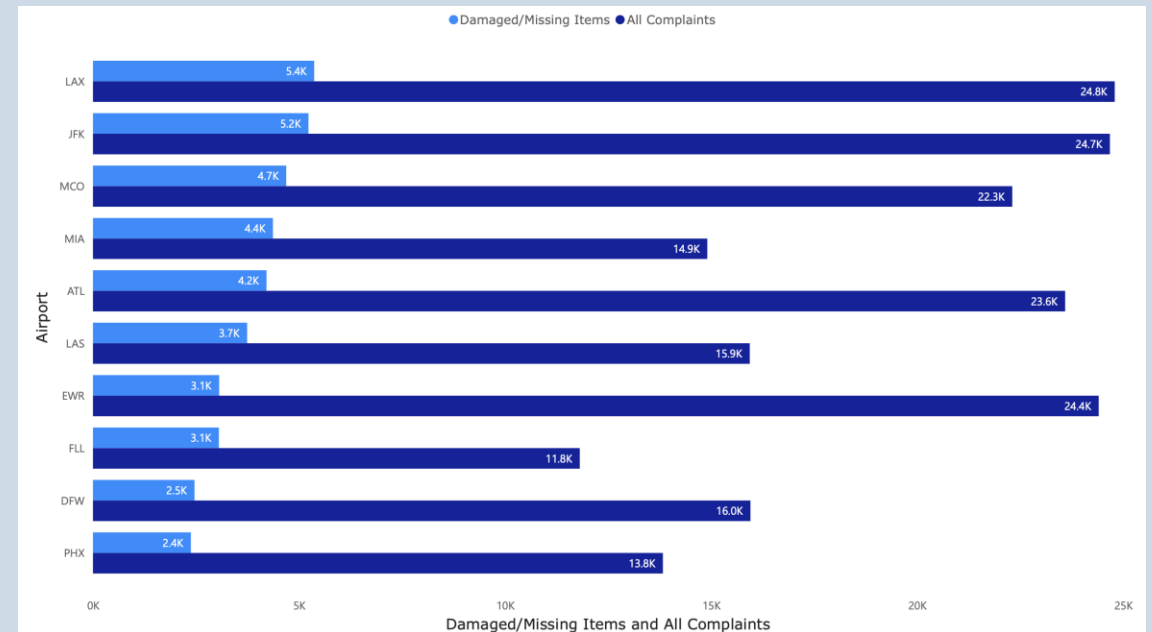

- Increase physical signage in these airports
- Increase digital ads for areas in and around these airports

Damaged/Missing Items by Airport

Continued-Damaged/Missing Items by Airport

- Account for over thousands of complaints

Next Steps

- Work with marketing to create and distribute physical and digital ads for these airport/airport adjacent areas for our trunk-style suitcase
